## CMW and Associates Corporation

---

### Project Management – Administrative Services – Training – Consulting

---

#### Sample of Major Clients

##### Government

- General Services Administration (GSA)
- US Department of Agriculture (USDA)
- Navy
- Army
- Department of Labor (DOL)
- National Guard
- Department of Homeland Security (DHS)
- Department of Transportation

##### Commercial

- Schnuck's Retail Grocer
- Marketing Alternatives Corporation  
(contact center outsourcing)

---

#### Sample Industry Partners

##### Small Business

- TaskSource
- CodePlus
- Conley
- Cognitive Professional Services, Inc.

##### Large Business

- Ricoh

---

#### Past Performance Examples

##### National Guard

- CMW and Associates supported soldier health readiness goals and managed soldiers who had medical issues and were not deployable and worked to get the soldiers to a deployable status. We assisted with soldier readiness processing administrative support and ensured medical policies supported all state units and Federal Law. We identified soldiers “at risk” and identified resource assistance.

##### USDA

- A project with USDA required 500,000 documents scanned and indexed each month. CMW and Associates examined the digitization requirements and applied their digitization standardized process to estimate a reduction in the time originally requested to digitize. We provided the USDA digitization in excess of 25% faster than required and ensured the organizational framework provided the correct level of indexing.

##### Army Contracting Command

- CMW and Associates provided data collection and analysis for the M777/M777A1 lightweight Howitzer 155mm weapon. The project entailed data collection to determine reliability, availability, and maintainability, operating support costs, and failure trends for fielded equipment.
